ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.

(54) Title: METHOD OF SIGNALLING, A COMMUNICATION SYSTEM AND A COMMUNICATION EQUIPMENT

WO 2005/069570 A1

(57) Abstract: First and second data is transmitted simultaneously
by modulating a first set of signal constellation points, correspond-
ing to the first data, with second data thereby creating a second set
of constellation points. The second set of constellation points com-
prises two subsets corresponding to two values of the first data. The
constellation points are selected such that the minimum distance
between the first and second subsets is not less than the minimum
distance between the constellation points of the first set of constel-
lation points.
